

INSTITUTE
FOR RESEARCH
IN BIOMEDICINE

POSTDOCTORAL FELLOW AT IRB BARCELONA

CELL AND DEVELOPMENTAL BIOLOGY PROGRAM DEVELOPMENTAL NEUROBIOLOGY AND REGENERATION GROUP

Applications are invited for a postdoctoral position in the Developmental Neurobiology and Regeneration Group, led by Dr. Eduardo Soriano, to investigate the mechanisms of axonal guidance and the role of developmental genes in adult plasticity. A background in molecular and cell biology techniques as well as in the neurobiology field is desirable but not required.

The Institute for Research in Biomedicine is a young dynamic research organization located in the stimulating scientific and cultural environment of the Barcelona Science Park. It brings together 28 groups in a multidisciplinary atmosphere that includes research on Oncology, Molecular Medicine, Chemistry and Pharmacology, Developmental Biology, and Structural and Computational Biology. The Barcelona Science Park hosts research groups from both the public and the private sectors and offers a wide range of state-of-the-art facilities.

The appointments are available immediately.

There is no official deadline for applications, which will be accepted until the position is filled. To apply send a curriculum vitae and names and contact information of two referees to (preferentially by email):

Dr. Eduardo Soriano
