

INSTITUTE  
FOR RESEARCH  
IN BIOMEDICINE

Ten two-year competitive postdoctoral fellowships are offered in an international call supported by EU Marie Curie Actions.

IRB Barcelona is an independent, non-profit research institution engaged in basic and applied biomedical sciences. The Institute aims to promote multidisciplinary research of excellence at the interface between biology, chemistry and medicine. IRB Barcelona is located in the Barcelona Science Park, a centre in which first-class public research converges with the private sector in a stimulating, vanguard scientific environment. It was recently named a Severo Ochoa Centre of Excellence by the Spanish Ministry of Science and Innovation.

One of the main objectives of IRB Barcelona is to train future scientific leaders in a competitive international and multidisciplinary scientific environment. IRB Barcelona focuses its efforts on developing the scientific careers of more than 100 postdocs and 150 PhD students. The advanced research training programme includes, among others, specific scientific and technology courses and seminars, lab management workshops, media training and career development sessions.

Selected candidates should start by 31 October 2012.

The deadline for applications is 6 March 2012.
