

IRB Barcelona

Artist in Residence Programme

Open call for 2022

1. About the programme

Art and scientific research have several things in common. Artists and researchers investigate the nature of our presence in the world, push boundaries in knowledge and technology, and venture into the unexplored. The questions our researchers study naturally inspire artistic inquiry, which in turn can offer a fresh perspective of the scientific endeavour. Both disciplines require **creativity, curiosity, and imagination**, combined with scrutiny, technique and determination.

IRB Barcelona's Artist in Residency Programme aims to connect artists interested in interdisciplinary science with the wide range of research, scientists, data and infrastructure available at the Institute. It provides a unique opportunity for artists to immerse themselves in the IRB Barcelona community for a free exchange of ideas and to explore, learn, and form relationships with our scientists and stakeholders. The programme seeks to provide artists and scientists alike with time and space for reflection and inspiration.

2. Criteria and conditions of the call

- Participation in this call is open to individual artists worldwide working in any field of creation.
- Applicants will submit a detailed proposal of the project to be developed within IRB Barcelona in accordance with the fields of study of the Institute. The proposal should include the following:
 - Title of the project
 - Aim of the project
 - Specific researchers to work with (or specific topics of research)
 - Detailed schedule/planning of the residency
 - Expected outcome
 - Plans to apply for grants (in case additional financial support is needed)

3. Terms and conditions of the residency*

- The residency will last for three consecutive months (to be defined at the beginning of the residency).
- The residency will take place before 31 December 2022.
- The residency will take place on IRB Barcelona premises (COVID allowing).
- IRB Barcelona will provide the artist with an allowance of €1500 (VAT excluded).
- Travel and accommodation expenses will not be covered.
- The artist is expected to develop artwork resulting from the residency.
- The developed artwork must be based entirely on the IRB Barcelona residency.
- The developed artwork will be presented in a public exhibition within one year after completion of the residency.
- The artistic interpretation and representation of the materials provided by IRB Barcelona and made by the artist belong to the artist. The artist will retain legal title and ownership of the artwork created with the materials.
- In the event that the artist obtains benefits from the commercial exploitation of his/her artwork, IRB Barcelona will be entitled to receive a percentage of said benefits, to be agreed in writing.

IRB Barcelona will provide the Artist in Residence with:

- Full IRB Barcelona member status for the duration of the residency.
- Direct access to scientists.
- Direct access to core facility staff.
- Access to images and data created in the laboratory, when possible.
- Facilitated contact with its network of collaborating institutes.
- Access to all scientific lectures, conferences and workshops.
- Visibility for the artist and his/her work through its communication channels (print and online publications, digital platforms and social media).

The Artist in Residence will be expected to:

- Define the details (duration, specific topic of the project, researchers involved, etc.) of the residency with the IRB Barcelona Coordination Team at the beginning of the residency.
- Coordinate and meet regularly with the IRB Barcelona Coordination Team.
- Establish dialogue with scientists and researchers at IRB Barcelona, with the support and guidance of the IRB Barcelona Coordination Team.
- Give a talk and/or workshop during the residency.
- Submit grant applications to open calls to support the specific project to be developed if additional funding is needed.
- Participate in IRB Barcelona's fundraising initiatives and campaigns.

- Participate in public engagement activities such as Open House, science and art events, etc.
- Promote the visibility of IRB Barcelona and the programme through professional networks, websites and social media channels.
- Complete the residency at IRB Barcelona in accordance with the proposal submitted.

***IMPORTANT: Due to the COVID-19 pandemic, some of the conditions of the programme may be subject to alteration. Decisions in this regard will be made in accordance with local regulations in force at the time.**

4. Application submission and selection

Artists intending to apply should submit a proposal adhering to the criteria of the call. Applications should be written in English and submitted via the online form at <https://www.irbbarcelona.org/en/outreach/public-engagement/art-and-science/artist-residence-programme>. The form requires the following:

- Contact details
- Resumé/CV
- Portfolio (recent work, exhibitions, residencies, research)
- Project proposal describing, in detail, the project that the artist intends to undertake during the residency at IRB Barcelona.

The project proposal should include the following information:

- Title of the project
- Aim of the project
- Specific researchers to work with (or specific topics of research)
- Detailed schedule/planning of the residency
- Expected outcome
- Plans to apply for grants (in case additional financial support is needed)

A Selection Committee comprising artists and scientists will be in charge of evaluating applications and choosing the Artist in Residence.

All applicants will be informed of the outcome by email. The winning proposal will be published on IRB Barcelona's website by mid-February 2022.

5. Key dates

- Application deadline: **27 December 2021**, 23:59 Central European Time.
- Selection Committee meeting and final decision: end of January 2022.
- Emails sent to the selected candidate and all applicants: by mid-February 2022.
- Residency period: the exact timing of the residency will be discussed between the artist and the IRB Barcelona Coordination Team and it will take place during 2022.

6. Contact and information
