

**enable**  
EUROPEAN ACADEMY FOR BIOMEDICAL SCIENCE

**Barcelona, 15-17 November 2017**

**THE 1<sup>st</sup> EUROPEAN PHD AND POSTDOC SYMPOSIUM**

**Breaking Down Complexity:  
Innovative models and techniques in biomedicine**

ENABLE is the first biomedical science symposium for PhDs and Postdocs to be held at the European level. Involving young scientists, this event seeks to encourage them to open up the academic world from within, to promote crosstalk between discipline, to collaborate with industry and to communicate with society. The 2017 ENABLE conference will include the following aspects:

- A top-level scientific symposium to bring together leading scientists, PhD students, and Postdocs
- Career development activities to support the career progression of young researchers and to foster discussion about opportunities beyond the bench
- Outreach activities with the general public to stimulate interaction between science and society

**CAREER DAY  
15 November 2017**

- Opportunity fair**  
Network with companies and find out about employment opportunities
- Career chats**  
Learn about the several career options available
- Workshops**  
Participate in a range of intensive courses devoted to the personal and professional development of young researchers

**OUTREACH ACTIVITIES**

- Microtalks**  
Have a chance to present key biomedical concepts to the general public
- Crossdisciplinary Session**  
Attend a round-table discussion involving the participation of 4 well-known figures, including a scientist, from various fields

**TAPAS WITH SPEAKERS**  
Meet renowned speakers over a nice finger-food evening to get to know their personal experience in academia

**SCIENTIFIC SYMPOSIUM  
16-17 November 2017**

**SESSION 1:** Building the foundations of biology: synthetic and cellular research

**Martin Hanczyc**  
Lab of Artificial Intelligence  
University of Trento, Italy

**Elaine Fuchs**  
The Rockefeller University  
New York, USA

**SESSION 2:** The OMICS Revolution: understanding the layers of life

**Johan Auwerx**  
Ecole Polytechnique  
Lausanne, Switzerland

**Wolf Reik**  
Babraham Institute  
Cambridge, UK

**SESSION 3:** From in vitro to in vivo: modeling Life in 3D

**Kristina Havas Cavalletti**  
IFOM  
Milan, Italy

**Marianne Verhaar**  
RMU Utrecht  
Utrecht, The Netherlands

**SESSION 4:** From discovery to cure: the future of therapeutics

**Eytan Rupp**  
University of Maryland  
CBCB, USA

**Christian Brander**  
IrsiCaixa  
Barcelona, Spain

**MASTERCLASSES**  
Learn about the latest cutting-edge techniques from biomedical experts. Several highly targeted seminars will be available.
