1. INTRODUCTION

This document sets forth the principles, policies and measures applicable at the FUNDACIÓ INSTITUT DE RECERCA BIOMÈDICA - IRB BARCELONA (INSTITUTE FOR RESEARCH IN BIOMEDICINE, hereinafter referred to as “**IRB Barcelona**”) with regard to Conflict of Interest.

Increasing demands are placed on research institutes to collaborate with enterprises as a way of generating additional funding to support their research. In this context, IRB Barcelona members are placed in situations where potential conflicts may arise between their personal and professional interests and the interests of IRB Barcelona.

The involvement of IRB Barcelona members in these activities may give rise to Conflict of Interest, whether potential or existing, which require IRB Barcelona to act and take action in defence of their interests.

All IRB Barcelona members are required to recognise and disclose their involvement in activities that give or might give rise to Conflict of Interest or the perception of a conflict, and to ensure that such Conflict of Interest is properly managed or avoided.

When Conflict of Interest is properly managed, the activities which could potentially give rise to such conflicts can normally continue whilst at the same time the IRB Barcelona member’s obligations are met and fulfilled, protecting the integrity and reputation of IRB Barcelona and its members.

Considering all the foregoing, it is IRB Barcelona’s policy to encourage and foster external activities whilst ensuring that when Conflict of Interest arises it is acknowledged and disclosed, and when necessary, properly addressed and managed.

2. SCOPE

- 2.1. IRB Barcelona has established the current policy and related procedures to identify, deal with, manage and solve the potential Conflict of Interest that may arise.
- 2.2. This Conflict of Interest Policy is applicable to all IRB Barcelona members, including those involved in research and development activities and managing staff.
- 2.3. Every individual to whom this policy is applicable shall have an obligation to become familiar with and abide by the provisions of this policy.
- 2.4. Every individual to whom this policy is applicable shall have the obligation to recognise situations in which they have a Conflict of Interest, or might be reasonably seen by others to have a Conflict of Interest, and in such case, to disclose that situation to the appropriate person and to take such further steps as may be deemed necessary to manage the situation as set out in more detail hereunder.
- 2.5. IRB Barcelona members shall undertake all necessary measures to minimise and manage any potential Conflict of Interest.

5. PROCEDURE

The following procedure shall be followed by IRB Barcelona members and IRB Barcelona in the event of an actual or potential Conflict of Interest:

- 5.1. In some situations, IRB Barcelona members may find themselves in a position where there is an actual, potential or reasonable perceived by others Conflict of Interest, whether financial or non-financial. If such is the case, any such IRB Barcelona member shall declare it to the Head of HR. Any such disclosure shall indicate the type of potential Conflict of Interest, the nature of the activity, a description of the parties involved, and any other information is deemed necessary or appropriate for the evaluation of the situation.
- 5.2. After proper evaluation, Head of HR may find that the disclosed circumstance shows no conflict or apparent Conflict of Interest, and that the proposed or on-going situation is acceptable without further review. On the contrary, if the Head of HR determines that a given situation raises reasonable concerns, the specific case will be referred to the Conflict of Interest Committee, who shall pursue it with further inquiries and issue a written resolution stating whether the disclosed situation is acceptable or not, and if not, it will propose a line of action.
- 5.3. The Conflict of Interest Committee shall be entitled to establish any monitoring, review, reporting or any other mechanisms it deems appropriate to address a potential Conflict of Interest.

- 5.4. The Conflict of Interest Committee shall require the IRB Barcelona member involved in a Related Entity to submit a completed “Conflict Avoidance” statement in a form similar to the following standard example:

“...Because of the license (“the License”) granted by IRB Barcelona to [name of Spin-off company] (hereinafter “the Company”) and my involvement in such Company as [Researcher’s link to the Company], I acknowledge the potential for a possible Conflict of Interest between the performance of my research at IRB Barcelona and my personal interests and/or contractual or other obligations towards that Company. Therefore, I will not:

- 1. Involve students of IRB Barcelona in research and development projects for the Company without the prior approval of IRB Barcelona Directorate, and if required, of the PhD Advisory Committee;*
- 2. Take decisions or carry out actions or omissions that may restrict or delay the access of IRB Barcelona to relevant information, or that may provide a benefit to the Company, apart from those stipulated in the collaboration or similar agreement between IRB Barcelona and the Company;*
- 3. Change, adversely affect, or modify the scope or direction of my research at IRB Barcelona, or that of other Researchers to the benefit of the Company, apart from those stipulated in the collaboration or similar agreement between IRB Barcelona and the Company.*

In addition, and in order to avoid the appearance of a conflict, I will attempt to, and adopt measures to, differentiate clearly between the intellectual direction of my research at IRB Barcelona and my contributions to the Company. To this end, I will report annually to the Director regarding the general nature of my activities on behalf of the Company and how those differ from my research at IRB Barcelona.

Finally, I understand that IRB Barcelona policies may require me to disclose my involvement in the Company in any publications or public statement that I make concerning research results related directly or indirectly to the License.”

6. DISCIPLINARY MEASURES

In the event that an IRB Barcelona member fails to comply with this Policy, the Directorate may suspend all relevant activities of such IRB Barcelona member and take disciplinary or other administrative actions as deemed convenient. The responsibility for initiating disciplinary actions shall reside with the Directorate of IRB Barcelona.
