

Barcelona BioMed Seminars

Research Nodes' Seminar

Regulation of tumor angiogenesis and mesenchymal-endothelial transition by p38a through TGF- β and JNK signaling

Raquel Batlle, PhD

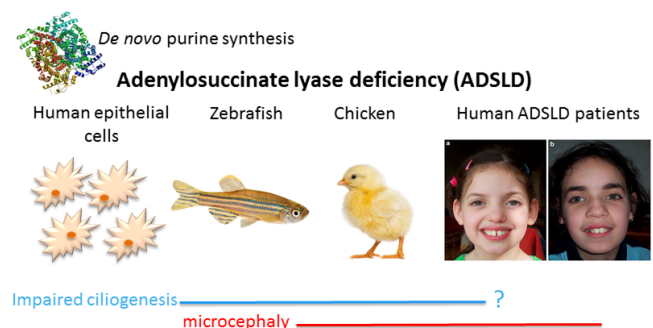

Signaling and Cell Cycle Laboratory
Preclinical Models of Cancer Node

Is Adenylosuccinate lyase deficiency (ADSLD) a ciliopathy?

Ilaria Dutto, PhD

Genomic Instability and Cancer Laboratory
Preclinical Models of Disease Node

Date: Wednesday, 9 January, 12.00h

Place: Serratosa Room

Barcelona Institute of
Science and Technology
