

From Science to Business

COURSE: ESADE EXECUTIVE EDUCATION Building, Av. Esplugues 92-96, Barcelona, 28-29 May & 4 June, 2019

WELCOME EVENT: BARCELONA INSTITUTE OF SCIENCE AND TECHNOLOGY (BIST), 27 May, 2019

From Science to Business will prepare participants to:

- Get acquainted with the business world and learn how companies create value for society and for themselves: providing more, better and healthier food, a cleaner, healthier and safer environment, and a longer and better quality of life and wealth.
- Understand the framework within which companies work and how they create value in a competitive environment.
- Get a hands-on approach to the new venture creation process, and the role that science/technology plays in it.
- See that new venture creation needs scientists and engineers, and that entrepreneurship can be an attractive career path.
