Barcelona BioMed Workshops

FUNCTIONAL GENOMICS CORE FACILITY COURSE

Preliminary Programme

09:30-10:00	Course introduction
10:00-10:45	A brief history of high-throughput sequencing and its applications
10:45-11:00	Break
11:00-12:00	Human whole-genome, whole-exome and targeted sequencing
12:00-12:15	Break
12:15-13:15	Transcriptome and epigenome sequencing
13:15-14:30	Lunch break
14:30-14:50	Kahoot!: "Archetypal character traits in genomics research"
14:50-15:00	Course wrap up and feedback

Audience: All IRB Barcelona members are welcome (previous registration requested).

Level: Content is adapted to all audiences with a keen interest in genetics, genomics and biotech.

Registration: Fill in the registration form [here](#) before 11 May.
