

INSTITUTE
FOR RESEARCH
IN BIOMEDICINE

Dear IBMB-CSIC member,

In February 2007, IRB Barcelona subscribed to the *Sigma-Aldrich RNAi Partnership Program*. This agreement establishes the following:

*“All the RNAi products from this collection will be available for **exclusive** use to the members belonging to the centre **IRB Barcelona**. They can be used only for **research purposes** and they can not be sold to any other institution or use for commercial purposes”.*

In May, 2009 the IBMB (CSIC) signed an amendment to the previous one that allows their scientists access under the same conditions as IRB Barcelona staff and that establishes the following:

*“Both IRB Barcelona and IBMB shall continue to be bound by all other provisions of the label license and **no further distribution** of the libraries shall be allowed without further consent of Sigma-Aldrich”.*

Before using RNAi products from this collection in an external scientific collaboration, please contact the IRB Barcelona's Dept. of Innovation and Strategic Projects (innovation@irbbarcelona.org).

Kind regards,

Department of Innovation and Strategic Projects
IRB Barcelona

Signed and understood
